||| About us

Shri sambhav extrusions is a new brand belonging to Pankaj Metal works that is a leading aluminium manufacturing firm for over 40 Years now. Here at Shri sambhav extrusions, we specialize in providing you the best in quality powdercoated aluminium railing system, louvers, slim series and domal sections.

||| Our Products

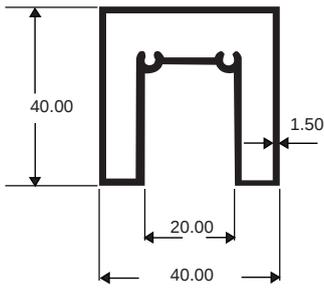

- 1) Aluminium Glass Railing
- 2) Aluminium Louvers
- 3) Aluminium window series
- 4) Aluminium slim series

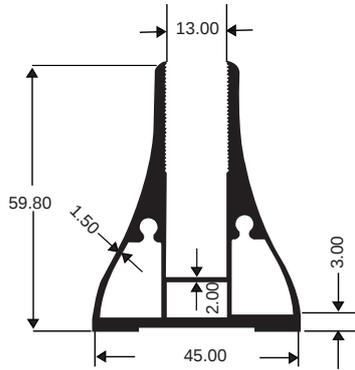

Aluminium glass railings

Aluminium glass railings combine the strength of aluminium with the elegance of glass, offering a modern and sleek design for residential and commercial spaces. They provide safety without obstructing views, making them ideal for balconies, decks, and staircases. Aluminium's durability ensures long-lasting performance, while glass adds a touch of sophistication.

Aluminium Louvers

Aluminium powder-coated louvers provide a durable and aesthetic solution for architectural and industrial applications. Their corrosion-resistant properties make them ideal for outdoor use, while the powder coating enhances their appearance and durability. Louvers crafted from aluminium powder coating offer both functionality and visual appeal in various settings.

Aluminium Domal Series

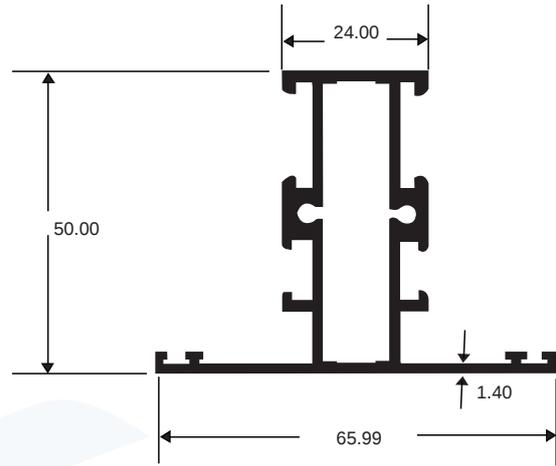

Aluminium domal sliding fixed windows are popular for their versatility and functionality in both residential and commercial buildings. They offer smooth operation, space-saving design, and excellent ventilation. The aluminium frames provide durability and low maintenance, while the sliding mechanism allows for easy opening and closing, making them a practical choice for various settings.

Aluminium slim series

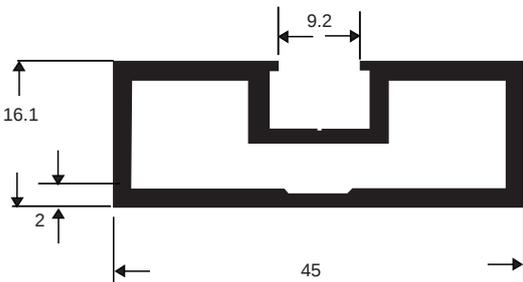

Aluminium slimline sections are favored for their sleek design and versatility in modern architecture. These slim profiles offer a minimalist aesthetic while providing strength and durability. Widely used in windows, doors, and curtain walls, they maximize natural light, enhance energy efficiency, and lend a contemporary look to buildings, both residential and commercial.

|| Powdercoating

Discover Quality at Shri Sambhav Extrusions

At Shri Sambhav Extrusions, we take pride in offering the best in class products with our top-tier vendors. Whether it's our premium aluminium, exquisite wooden finishes, or durable Akzonobel powder coating, we ensure the highest quality in every detail. Trust us for excellence in materials and finishes for your projects!

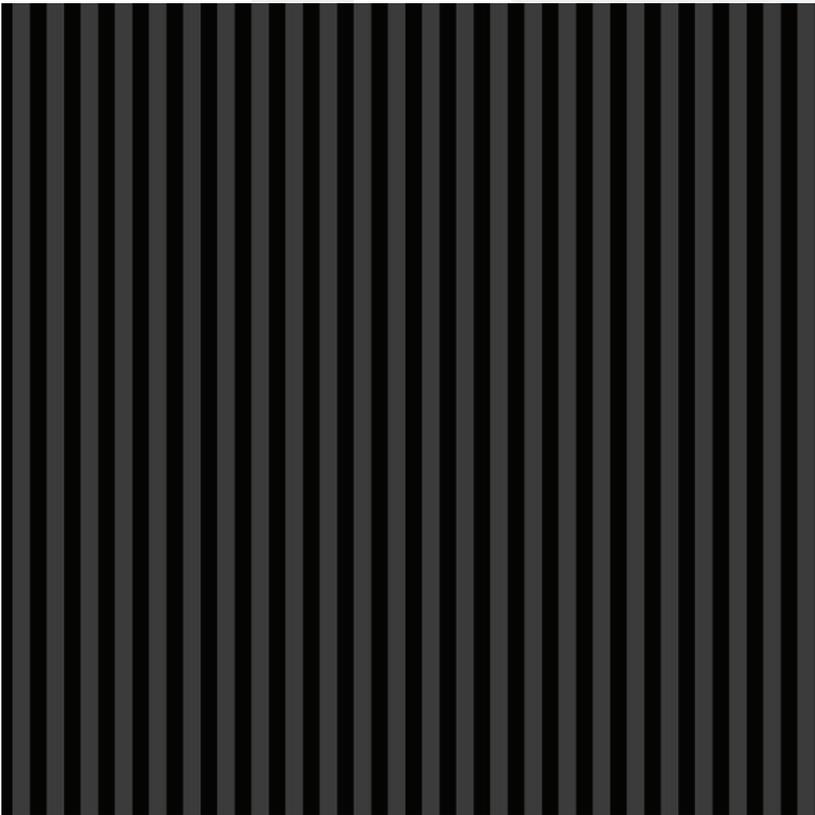

Wooden Finish Coating

Benefits

1. Aesthetic Appeal
2. Durability
3. Low Maintenance requires minimal maintenance.
4. Environmental Friendly
5. Versatility
6. Cost-Effective
7. Consistency

Akzonobel Coating

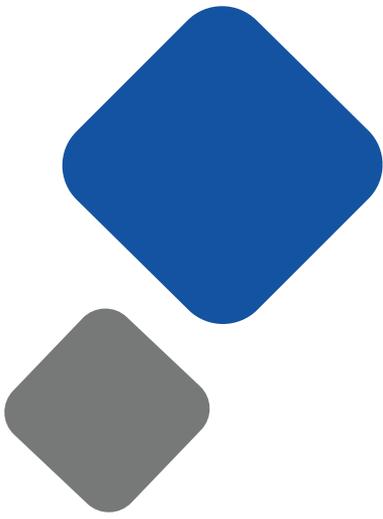

Benefits

AkzoNobel, a leading global paints and coatings company, offers a range of benefits when their paints are applied to aluminum surfaces:

1. Corrosion Resistance
2. Durability
3. Color Retention
4. Chemical Resistance
5. Customization
6. Compatibility
7. Maintenance
8. Global Reputation
